

VIDEO INSTRUCTIONS

Jar Inventory Guide

Congratulations! You've taken the first step towards organizing your bottles and jars of glitter, embossing powder, paste, and more. This guide and the Sorting Jigs will help make this easier!

Stamp-n-Storage Jar Carousels are designed around four different sizes of jars: Small, Medium, Large and Tall. However, because there is so much variety in the Tall category, we look at three different diameters.

Pass each different size of jar through the Sorting Jig. What is the smallest opening your jar fits through? How many do you have of each one? Record it in the table below.

IMPORTANT NOTE: The side of the jar should enter the Sorting Jig first, not the bottom or top. Watch the video linked above for more details.

Brand-Product	Small	Medium	Large	Tall 1"	Tall 1.75"	Tall 3"
Total						

Tall Jar Adjustment Math

More 1" jars will fit in a Tall Jar Carousel compartment than 1.75" jars or 3" jars. To make it easier to pick the right carousel, complete the adjustment math in this table.

	Total from Above	Divide By			Adjusted Amount
Tall 1"		÷	8	=	
Tall 1.75"		÷	3	=	
Tall 3"		÷	1	=	
Adjusted Total					

Selecting the Right Carousel for You

Jar Size	Your Total	Product Recommendations
Small	0-36 Jars 37-72 Jars 73-108 Jars	Jar Carousel w/1 Small Section Jar Carousel w/2 Small Sections Jar Carousel w/3 Small Sections
Medium	0-20 Jars 21-40 Jars 41-60 Jars 61+ Jars	Jar Carousel w/1 Medium Section Jar Carousel w/2 Medium Sections Jar Carousel w/3 Medium Sections Jar Carousel for IKEA - Medium
Large	0-14 Jars 15-28 Jars 29-42 Jars 43+ Jars	Jar Carousel w/1 Large Section Jar Carousel w/2 Large Sections Jar Carousel w/3 Large Sections Jar Carousel for IKEA - Large
Tall Jars	0-12 Jars * 13-24 Jars * 25-36 Jars *	Jar Carousel w/1 Tall Section Jar Carousel w/2 Tall Sections Jar Carousel w/3 Tall Sections

Pro Tip #1:

With the Jar Carousel, you can mix and match sections to have the perfect combination for your jars!
For example, if you have:

- Small Jars: 30
- Medium Jars: 18
- Large Jars: 11

You would purchase the Jar Carousel with 1 Small Section, 1 Medium Section, and 1 Tall Section.

Pro Tip #2:

The Combo Jar Carousel for IKEA is perfect if you have a mix of Small (up to 42) Medium (up to 42) and Tall (up to 14 – using the adjusted total).

Pro Tip #3:

Small jars will fit in Medium jar sections. If you don't have enough small jars to fill a section but you have a lot of Medium jars, then purchase enough Medium sections to hold all of your jars.
